

For all
Central Vacuums

EdgeLift+QuickClick

Choose the desired length of hose for the quickest vacuuming session possible. The sectional Quick Click hose makes long hoses an option.

Achieve a cleaner home without additional effort with Edgelift's direct suction on both side edges to clean right up against baseboards.

Relax when vacuuming. Accidentally catch a throw-rug? The EdgeLift automatically shuts-off, saving your rug and your life-time warranted belt.

EdgeLift's maintenance free, quiet operation, and refreshing ease-of-use can *cheer up* every central vacuum homeowner.

EdgeLift's Superior Features:

- Patented dual edge-cleaning and corner-cleaning boosters for unprecedented pickup on both sides.
- Triple-bearing brushroll, perfectly balanced and super smooth, with comprehensive thread guard system that virtually seals all three bearings from hair and thread.
- "Smart Module" electronic overload protection automatically stops the motor if an obstruction jams the brushroll. 2-color LED shows status.
- Low-friction "floating" base for maximum cleaning performance and exceptional maneuverability on all thicknesses of carpet, making conventional height-adjustment contraptions obsolete.
- Treaded wheels and swinging bristle squeegee for easy handling and concentrated air power on bare floors.
- Ergonomic telescoping chrome ratchet wand and expanding curly cord adjusts easily to preferred length.
- Long-life cogged belt with positive traction and no slippage for maximum lifetime warranty.

Central Vacuum Kit Contents:
