

# AirForce History

Great changes often start from a simple concept. This is true with the revolutionary new design of the MD AirForce motor.

The M.D. team pulled together to create the newly patented motor design that is at the base of the MD AirForce unit creating the quietest and coolest central vacuum system ever made. Add M.D.'s new exclusive license agreement with Powerline Control Systems for home automation technology, and the greatest generation in central vacuums was created.

Of course, new technology isn't all we offer. M.D. Manufacturing has over forty years experience in designing and manufacturing the finest central vacuum systems on the market today. We're proud that our high standard of service and innovation has made M.D. Manufacturing a leader in the central vacuum industry.

# AirForce Warranty

MD AirForce warranties all its power units against electrical component failure for a period of three (3) years. Any parts (excluding filters) required within the first three years will be furnished free of charge by the authorized dealer from whom the power unit was originally purchased.

MD AirForce will extend the warranty on all its power units for an additional three (3) years — for an overall coverage of six (6) years — provided the motor brushes are inspected and replaced (if needed) at the end of the first three (3) years. There is a nominal service charge for the warranty extension and the inspection must be done by an authorized MD AirForce dealer.

MD AirForce also provides a Lifetime Warranty for those units serviced on the extended warranty plan by continuing to replace

and/or repair all "replacement" parts at a cost never to exceed fifty percent (50%) of the retail price at the time the repair or replacement takes place. The Lifetime Warranty begins at the end of the warranty extension period and is in effect for the life of the unit.

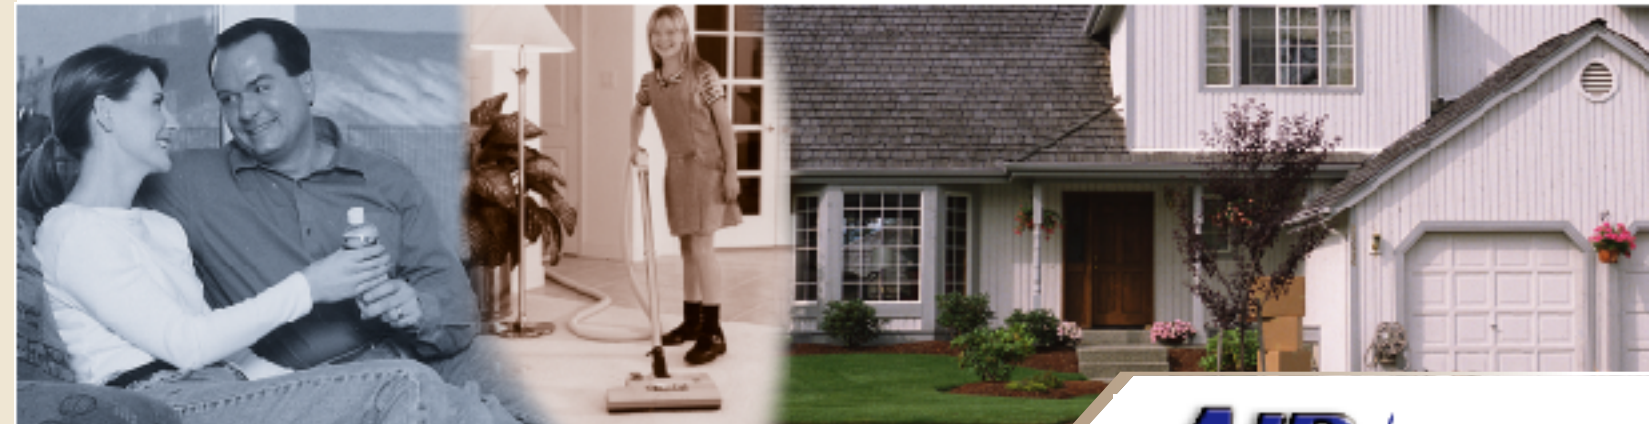

Additionally, all MD AirForce units are guaranteed for life against defects in materials and workmanship. In the event an authorized dealer is not nearby, MD AirForce will honor and perform all warranty and/or warranty extension services for a nominal charge, provided the power unit is returned to the factory, freight pre-paid, and it can be verified that all services were performed by an authorized MD AirForce dealer. This warranty does not apply to commercial applications, misuse, abuse, or if unit has been worked on by an unauthorized person.

Model	Recommended Home Size	Power Brush	Motors	Waterlift Max	CFM Max	AirWatts Max	Amps Max	Trash Capacity (gallons)	Level of Quietness (decibels)
AF2	5,000 sq.ft.	Electric	(2) 5.7" 2-stage	85"	183	514	15.8	12	Low 60s
AF2 240v	5,000 sq.ft.	Electric	(2) 5.7" 2-stage	95"	208	722	9.8	12	Low 60s
AF4	5,000 sq.ft.	Air-Driven	(1) 5.7" 3-stage	139"	101	458	14.1	12	Low 60s
AF4 240v	5,000 sq.ft.	Air-Driven	(1) 5.7" 3-stage	138"	100	444	6.9	12	Low 60s
AF5	20,000 sq.ft.	Electric	(2) 5.7" 3-stage	139"	191	905	27.8	12	Low 60s
AF5 240v	20,000 sq.ft.	Electric	(2) 5.7" 3-stage	136"	190	866	13.7	12	Low 60s

Four-stage filtration at .3 microns. Outside exhausting available. All units are 14" wide, 36" tall.
