

INDOOR AIR QUALITY

EPA studies of human exposure to air pollutants indicate that indoor air levels of many pollutants may be 2-5 times, and occasionally more than 100 times higher than outdoor levels.

SO WHAT CAN YOU DO TO PROTECT YOUR FAMILY?

"Keep the house clean to reduce allergy-causing agents like microscopic dust mites, animal dander, and pollen... Consider using a high efficiency vacuum filter or a vacuum system that's vented to the outside."

Asthma, Air Quality, and Environmental Justice: EPA's Role in Asthma Education and Prevention (July 1995, EPA Document #402-F-95-001)

The long-term health benefits of a SilentMaster central vacuum are amazing! Imagine being able to actually remove allergens from the living environment every time you vacuum your home.

Each speck of dust, each fungi, and every dust mite hiding deep within the carpet can be whisked away by aggressive agitating power cleaning brushes and carried completely out of the living environment by the powerful SilentMaster airflow.

3 POWERS NECESSARY TO REMOVE DEBRIS FROM CARPET:

- ▶ Separation of carpet fibers
 - ▶ Airflow to remove debris from between fibers
 - ▶ Bristle action to remove hair and threads clinging to the fiber
- SilentMaster and Stealth combine all 3 like no other cleaner!

SILENTMASTER'S PROMISE

SilentMaster warranties all its power units against electrical component failure for a period of three years. Any parts (excluding filters) required within the first three years will be furnished free of charge by the authorized dealer from whom the power unit was originally purchased.

In addition to the standard warranty an **extended three-year warranty** is available - for an overall coverage of six years- provided the motor brushes are inspected and replaced (if needed) at the end of the first three years. There is a nominal service charge for the warranty extension and an authorized SilentMaster dealer must perform the inspection.

SilentMaster also provides a Lifetime Warranty for those units serviced on the extended warranty plan by continuing to replace and/or repair all "replacement" parts at a cost never to exceed fifty percent of the retail price at the time the repair or replacement takes place. The Lifetime Warranty begins at the end of the warranty extension period and is in effect for the life of the unit. This warranty does not apply to commercial applications, misuse, abuse, or if the unit has been worked on by an unauthorized person.

SILENTMASTER'S HISTORY

SilentMaster is the result of over forty years experience in the design and manufacture of central vacuum cleaning systems.

Each and every unit is backed by a family-owned company that has grown large enough to be competitive, but is small enough to be personal.

This singular commitment to the central vacuum cleaning industry has produced the innovative characteristics of the SilentMaster power unit - the most Silent system available today!

A NEW ENVIRONMENT
IN CLEANING

THE SILENTMASTER ADVANTAGE

From superior indoor air quality to unsurpassed convenience, SilentMaster outpaces other vacuum systems from start to finish. Your family deserves the best, and SilentMaster gives you the advantage!

HEALTH

Eliminates the re-circulation of unhealthy, germ-laden air. Unlike ALL portable vacuum cleaners, the exhaust air is vented outside your living area. Healthy indoor air is yours with SilentMaster.

NOISE

The moment you put your SilentMaster to use you will understand the name. The SilentMaster unit is quieter than most popular portables - and it's mounted outside the living area! Silence is golden.

VALUE

A valuable addition to any home, the SilentMaster system appreciates the value of your property and serves as an excellent selling feature. You also save time and money by prolonging the life of your carpeting and furniture with increased, deep-down cleaning power.

VERSATILITY

Use your SilentMaster for any type of cleaning: carpeting, wood and tile floors, furniture, crevices, corners, staircases, workshops and even the garage. With the Stealth powerbrush system, you can clean with ease in any environment.

CONVENIENCE

Simply insert the lightweight hose into any conveniently located inlet and you are ready to vacuum. A switch is available on the end of the hose to turn the Silent Master on. You can even activate our high-quality Stealth Electric Powerbrush from your fingertips. A full range of attachments are available for your convenience.

POWER

You can do a superior job of cleaning in less time. With three to four times more cleaning power than most portables, SilentMaster gives you deep cleaning power in an easy to use system. And with the addition of the stealth attachment kit, it will far outperform any portable.

YOU COMPARE

A manufacturer is only as good as its willingness to encourage comparison. SilentMaster encourages you to compare, not only the construction of other units, but to actually use and listen to other working models as well. We are confident that you will see and hear the SilentMaster advantage!

- ▶ The largest trash capacity available
- ▶ Four-stage filtration for increased motor life
- ▶ A utility inlet for vacuuming directly from the power unit
- ▶ The finest electrical components: Baster transformers, Honey-well relays, and Lamb motors
- ▶ Electronically spot-welded, 20-gauge steel construction
- ▶ Unequaled quiet operation due to patented noise control system

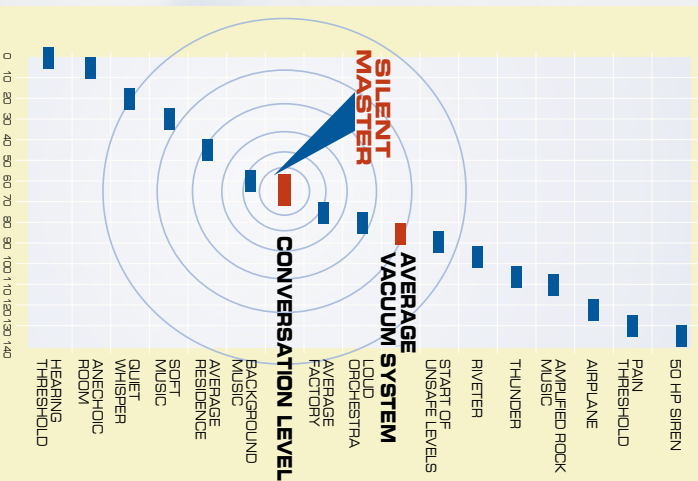

INFORMATION ONLINE
